

On Sunday 20th October, a group of 20 IBMers met on the Southsea promenade for a group photo in gloriously sunny conditions. Whilst a bit chilly, it was a perfect day for the Great South Run and every single IBMer delivered amazing performances.

This group of IBM runners formed 3 teams as part of the ENGIE Business Challenge and their combined times resulted in some silverware for the Hursley cabinets with the IBM Hursley Runners securing the top prize for the large business Male Winners category amongst other prizes too – congratulations!

This was the first sporting event which was subsidised by the National Tournaments (IBM UK Club), and as a result of it's success, keep an eye out for future events in 2020, including relay events, triathlons and maybe a muddy obstacle course or two!

If you're interested in joining or have ideas of what we can do as an IBM team, please get in touch with Gwentyth Moore/UK/IBM.
